

GEO. E. GREENWELL AND COMPANIONS ARE INJURED

George E. Greenwell was severely injured and William O'Barkins and William Slater were badly shaken up this morning when the scaffold on which they were working at the new Golden Rule store gave way. The three men fell a considerable distance and a large number of bricks fell upon them.

Greenwell suffered a broken rib, a deep cut in the face and many bruises about the body. He was taken to the hospital where he was attended and then removed to his home. It was necessary to take eight stitches to close the wound in his face. O'Barkins and Slater were able to walk to their homes.

Greenwell and Slater were laying brick on the walls of the new building and O'Barkins was bringing the necessary materials. While the three were on the platform, the under three gave way and the entire scaffold fell to the ground and a large pile of bricks toppled over on them.

SECTION LABORER IS KILLED BY TRAIN ON UNION PACIFIC

James Cachelefers, a Union Pacific section laborer, repairing the main line track east of Rawlins, Wyoming, was instantly killed yesterday when he was hit by a westbound passenger train which passed over him. His body was so badly mangled that identification would have been impossible.

According to the report of the accident received in this city by the claim agent, Cachelefers stepped from the east-bound track to the west-bound track to avoid a passing freight train, and moved directly into the path of the west-bound passenger train.

BESSIE BARRISCALE AT UTAH

The Utah theater presents today, a film version of the popular Katharine Norris novel, "The Heart of Rachael," with Bessie Barriscale as star. This picture is a powerful human drama of modern social life, with an attractive atmosphere of gaiety and wealth characteristic of the ultra-fashionable set represented.

Another Fibre Box Factory Is Now in Sight

A third box manufacturing company now proposes to come to Ogden with a plant, the latest concern to show interest in the local field being the Lawrence Paper Manufacturing company of Lawrence, Kansas, according to word received yesterday afternoon by the Utah Canners' Association. A delegation of officials of this concern is expected to arrive in this city tomorrow or the day following.

General Manager A. E. Mandel of the National Paper Products company of Stockton, California, arriving here a week or two ago, departed last evening for Stockton after announcing that he had selected a site. He, however, declined to name the location of the site, saying he would do so as soon as he returned and all negotiations had been completed. He expects to return to Ogden in about a week.

President Keckhefer and other representatives of the Keckhefer company of Milwaukee have been in Ogden since Sunday, going over the local situation. They will meet a number of

A NERVOUS BREAKDOWN

Miss Kelly Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Newark, N. J.—"For about three years I suffered from nervous breakdown and got so weak I could hardly stand, and had headaches every day. I tried everything I could think of and was under a physician's care for two years. A girl friend had used Lydia E. Pinkham's Vegetable Compound and she told me about it. From the first day I took it began to feel better and now I am well and able to do most any kind of work. I have been recommending the Compound ever since and give you my permission to publish this letter."—Miss FLO KELLY, 476 So. 14th St., Newark, N. J.

The reason this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, was so successful in Miss Kelly's case was because it went to the root of her trouble, restored her to normal healthy condition and as a result her nervousness disappeared.

BELL'S
FOR INDIGESTION

The manufacturers before announcing their definite decision.

The Utah Canners' association, members of which are very much interested in the plans for a box factory because of their heavy use of shipping cases, will meet in Ogden early next week when it is expected that the representatives of the three companies will place their proposals before the organization.

In connection with these proposals it has been suggested that possibly a paper and pulp board manufacturing plant might be built in Ogden, supplying not only the needs of the box factory direct from the forests of Utah and Idaho, but also supplying other paper needs of this section. That the raw material is available for such a plant in Ogden has been stated by forest service officials after very careful inquiry, the only question being that of sufficient market.

DO YOU WEAR FALSE TEETH?

We Have a New Device

FOR HOLDING ARTIFICIAL TEETH IN ALIGNMENT WITHOUT EMPLOYING SUCTION.

It consists of a pair of flat coiled springs attached by pivots to the rear of the two plates, the springs are bowed, the bend extending toward the rear of the mouth, and caused the plates to exert a continuous pressure on the jaws, keeping them in position at all times.

With this device attached to your plates the common plate trouble will be entirely eliminated. The upper plate will not drop, but stay firm in its place and by cutting the palate portion out of it, your food will again taste like it did before you had to wear artificial teeth.

Your own dentist can put them on for you, or call at 714-15 Eccles building.

LABOR COMMITTEE GOES TO SEE THE GOVERNOR

To petition Governor Simon Bamberger for the appointment of a labor commissioner to be located in Ogden in order to take care of the many matters that arise in the local field needing attention, a delegation from the Ogden Trades and Labor Assembly went to Salt Lake this morning.

An appointment had been made a few days ago for a meeting of this committee with the governor at 11 o'clock this morning. Those on the journey in the interests of the labor field here are H. W. Beckett, Sr., Alex. Crosby and J. H. Heitman.

This committee was instructed to impress upon the governor the necessity of having a commissioner with headquarters in Ogden to take care of the northern section of the state. It is pointed out that there are now three commissioners of labor in Salt Lake City, although a large portion of the work to be done arises in or around Ogden. At times cases arise, it is said, in which immediate action is needed and often the labor commissioner would be able to make adjustments on the spot to the satisfaction of all concerned. The labor commissioner is a representative of both parties in case of a controversy and it is his duty to try to harmonize the employer and employee whenever such necessity arises.

METHODISTS ARE TO HOLD CONFERENCE IN UTAH

The first session of the annual conference of the Utah Methodist Episcopal mission will be held at the First Methodist church in Ogden, August 28, and the sessions will extend for several days. The agenda for the conference was announced by Rev. Christian R. Garver, pastor of the local church of the mission.

Bishop Francis J. McConnell of Denver, Colo., will preside over the session, during which proposals for the building of a Methodist university in Ogden as a part of the co-educational system of that denomination will be considered.

Bishop McConnell was formerly president of the DePaul university, being elected as a bishop of the Methodist Episcopal church while head of that school. He has taken a great interest in the plan for a university in Utah and is understood to favor the plan, which has been considered by Methodists of this state.

Preliminary to the conference and the discussion of these plans, the question of the Methodist university is being considered by Methodist leaders of the eastern states.

If the university is built here, the faculty will be composed of professors and instructors from some of the greater Methodist schools of the east, probably including both Northwestern university at Evanston, Ill., and DePaul university in Chicago.

Nearly thirty years ago, the Methodists started the building of a university in Ogden, during what are now known as "the boom days." This project was abandoned along with many others, in the period of depression that followed. Part of the large building which was torn down, was utilized in building many residences and other buildings in the city, while some of the ruins stand on the university grounds at the head of Thirtieth street.

Federal Warehouse Men in Ogden Investigating

R. L. Nixon, chairman of the federal warehouse investigation committee of Washington, D. C., and other members of the committee were in Ogden yesterday conferring with Utah grain dealers regarding proposed changes in the United States warehouse law, which provides for grading of cereals, including wheat, corn, rye and other grains, as well as grading of flour.

Data that is collected at the various conferences throughout the United States will be compiled and submitted to the warehouse committee, after which legislation will be mapped out. The conference was held in Ogden because this city has become the grain shipping and handling center of the state.

The representatives of the government are R. L. Nixon, chairman of the warehouse investigation committee, S. G. Hilton, grain investigator of Washington; A. H. Fast of the legal department of the department of agriculture, and Miss Wilda N. Daish, stenographer and reporter for the commission.

Among those who appeared before the committee was N. J. Morgan, grain supervisor of the thirty-second district which comprises Utah and parts of Idaho, Montana, Nevada and Wyoming. Representatives of the Ogden Grain exchange as well as several millers from other parts of the state appeared before the committee. The commission left Washington June 5 and have been holding meetings in centers of various districts. They expect to be back at the national seat of government about July 7. They were sent out to get ideas and suggestions as to changes, amendments, or otherwise, concerning the United States warehouse act. No statement was given out as to recommendations made by the local conferees.

Ethel Clayton's Beautiful Complexion

That splendid actress now appearing under the Paramount banner is famous for her beautiful complexion. She attributes her wonderful skin to the use of a simple toilet article called Derwillo. There is nothing like it for tan, freckles, shiny nose, sallowness, dark, rough skin. It takes the place of face powder, stays on better, as perspiration does not affect it, and it instantly beautifies the complexion. One application.

If you want a nice light white skin with rosy cheeks, get a bottle of Derwillo to-day. You will be surprised. Derwillo is sold at all up-to-date toilet counters. Be sure to read large announcement of Miss Clayton's recent appearance in this paper. It tells how to instantly have beautiful complexion and a soft, white, velvety skin even from "just loves to touch."—Advertisement.

Deaths and Funerals

KELLER—Mrs. Emil L. Keller, 73 years of age, passed away yesterday afternoon at the family residence, 1349 Washington avenue, after an illness of six months. The deceased has been a resident of this city for many years. She is survived by her husband and the following children: Mrs. B. J. Patterson and W. L. Keller, Kearney, Nebraska; Fred L. Keller, Twin Falls, Idaho; Charles L. Keller, Kallispell, Mont.; Henry Keller, Harrisville; Emilie Keller, Louis L. Keller and Mrs. C. A. Christensen, all of Ogden. The body was taken to the Kirkendall chapel pending funeral arrangements.

BISHOP—Frank Bishop, for many years a resident of Ogden, but more lately of Baker, Oregon, died at his home in Baker, June 14, and the body was brought to Ogden this morning and taken in charge by the Kirkendall company. Mrs. Bishop preceded her husband in death, having been called by death in Ogden 25 years ago. Surviving Mr. Bishop are a son and one daughter, Mrs. M. L. Heston of Swanton, California. Two brothers and one sister also survive.

Mr. Bishop was a member of the Masonic lodge of Baker and well known in that community. The funeral services will be held in the Kirkendall chapel tomorrow morning at 10 o'clock and interment Mountain View cemetery.

THIN PEOPLE SHOULD TAKE PHOSPHATE

Nothing Like Pain-Bitro-Phosphate to Put on Firm, Healthy, Plump and to Increase Strength, Vigor and Nerve Force.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollowness and angles by the soft, rounded lines of health and beauty, there are evidently thousands of men and women who keenly feel the want of a remedy for their excessive thinness.

Thinness and weakness are often due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate should produce a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, should soon disappear, dull eyes ought to brighten, and pale cheeks glow with the blood of good health. Miss Georgia Hamilton, who was once thin and frail, reporting that she had gained 25 pounds and never before felt so well.

Although bitro-phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, it should not be used by anyone who does not desire to put on flesh.—Advertisement.

Calumet Prize Is Won by Student of St. Joseph's

An Ogden boy is the winner of the prize in the contest of the Calumet Baking Powder company by writing a letter telling why his mother likes this brand of baking powder better than other brands.

This boy is James McCarty, a student of the sixth grade at the St. Joseph's school and son of Mr. and Mrs. Dennis McCarty, 640 Twelfth street. In telling why his mother liked this brand of that commodity so necessary in making pastry and in general baking young McCarty also gave some personal reasons.

Following is the letter which won the prize of five dollars:

"Why my mother likes Calumet baking powder best.

"Mother likes Calumet best because it goes farther, makes lighter, sweeter and better cakes and cookies than any other baking powder.

"Discouraged with other baking powders she tried Calumet. Now she makes cakes and cookies that melt in my mouth before they touch my teeth.

"Hurrah for Calumet."

(Signed) "JAMES MCCARTY, 'St. Joseph's School, 640 Twelfth Street, Ogden, Utah."

Songs, Marches and Dances on Columbia July Records

"Turkistan," a tenor solo sung by Billy Murray and the American quartette for Columbia records this month, takes you on a flying trip to foreign parts. "Idol (Just Let Me Worship You)" is a love song very well rendered by Young and Reardon. These two songs on the same record are an unusual combination of high art in popular music.

Marches are after all the most characteristic American expressions of enthusiasm. With the parades that are being held already, there's no such thing as too much enthusiasm. The "King Cotton March" and "High School Cadet March," those two old favorites, have been played by the Columbia band this month, and placed on either side of a double record.

Two of the best songs played by two of the most famous double orchestras for the Columbia July records are "Mary Ann" and "Bevo Blues," played respectively by the Waldorf Astoria dance orchestra and the Yerkes Jazambra orchestra. There are saxophones, xylophones, slide trombone, bells and kettles in these two lively jazzes.
